

**INSTITUTIONAL ARTICULATION AGREEMENT
BETWEEN
HEIDELBERG UNIVERSITY
AND
TERRA STATE COMMUNITY COLLEGE**

Heidelberg University (hereinafter identified as HU) and Terra State Community College (hereinafter identified as TSCC) recognize the continued need to facilitate the transfer of students from TSCC to HU to pursue and achieve their educational goals. In an effort to ease the transfer process and promote the closer coordination of academic courses, programs, and degrees offered by our institutions, HU and TSCC do hereby enter into the following institutional articulation agreement.

1. A student who meets HU admission requirements and who has successfully completed the requirements of the Associate of Arts (AA) or the Associate of Science (AS) Degree in a specified transfer curriculum at TSCC, including a minimum of sixty (60) semester hours or equivalent of TSCC collegiate work or accredited transfers to TSCC, will be admitted with full junior standing and will be entitled to all rights afforded to native junior students at HU.
2. Due to curriculum structures and the variability in student enrollment patterns, HU cannot guarantee that students who transfer under the provision of this agreement will complete all the requirements to graduate from HU within two years. HU also cannot guarantee that only an additional 60 semester hours will be required to complete degree requirements. Courses transferred from TSCC shall be accepted toward the student's class standing and shall be applied to the student's academic requirements including general education and the major/minor.
3. Transfer students shall be subject to the catalog in force at the time of their matriculation to HU. Once admitted, transfer students shall be subject to the same regulations governing applicability of catalog requirements (including, but not limited to major, GPA, graduation, and/or residency requirements, policies, procedures, and standards) as native students. Furthermore, transfer students shall be accorded the same class standing and other privileges as native students on the basis of the number of credits earned.
4. All transfer students must complete General Education, major and minor requirements from a single HU catalog.
5. Of the total 120 minimum hours required to complete a bachelor's degree, a minimum of 30 semester hours must be completed at HU. A minimum of 60

semester hours must be completed at four-year institutions. At least half of the hours in a major/minor must be completed at HU. All students must also complete 30 hours at the 300-level or above.

6. All collegiate level credits transferred from TSCC for a student with an Associate degree other than an AA or AS, or prior to completion of the AA or AS degree, shall be applied toward the student's class standing and to both the General Education requirements and the student's major/minor requirements at HU in accordance with the academic requirements and course equivalents in effect for all students. Courses completed at TSCC shall be evaluated on a course by course basis. All courses transfer as passing credit and do not contribute to the student's HU GPA.
7. Courses with a grade of "D" will be accepted for students who transfer with an earned AA or AS Degree from TSCC. It should be noted that the student may be required to retake any course in which s/he received a grade of "D" where there is a minimum grade required by HU for all students pursuing the same academic program. If a course transferred with a grade of "D" and is subsequently repeated at HU, the hours will apply only one time toward the total hours required for a degree. Only courses with a "C-" or better will be accepted for students who have not earned an AA or AS degree.
8. TSCC credit awarded through testing recognized by the American Council on Education or The College Board shall be applied toward the degree requirements upon receipt of official test scores obtained directly from the testing agency verifying achievement at HU's acceptance level. TSCC credit awarded for experiential learning (prior learning) shall be applied only toward elective credit.
9. When an additional articulation agreement is made involving a new HU major, minor or curriculum, an addendum to this agreement will define further the specific details affecting students who enroll in that academic curriculum. A student must comply with the all requirements in effect at the time the new curriculum is added to the articulation.
10. HU will continue to update course equivalencies to guarantee students specific transfer credit from TSCC to HU. When appropriate, TSCC will, in turn, accept for transfer credit, those courses completed as specific equivalents at HU as a part of this agreement.
11. Both TSCC and HU will designate an official who will be responsible for all aspects of this articulation agreement.

HU contact:

Susan Rife
Associate Director of Admission
419-448-2097
srife@heidelberg.edu

TSCC contact:

Sister Patricia Carter
Coordinator of Transfer and Articulation
419-559-2374
spcarter@terra.edu

12. Both parties are to communicate the conditions of this institutional articulation agreement, in accordance with federal, state, and local laws, to their respective external and internal constituencies.

TSCC will appropriately include this agreement in any listing of articulation and transfer agreements and will communicate this information on the website and in publications designed to disseminate transfer information to students, staff, and faculty.

Heidelberg University will appropriately include this agreement in any listing of articulation and transfer agreements on the website and in publications, and will communicate this information to admissions representatives, advisors, and faculty.

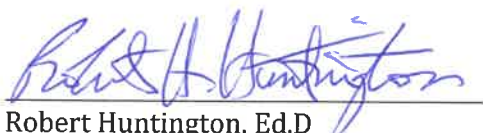

13. HU and TSCC will review this agreement and make adjustments or amendments as deemed appropriate to maintain the integrity of each institution as well as for the improvement of transfer process and student articulation. HU and TSCC officials will, annually, exchange information concerning significant changes in their respective curricula and catalogs. Such changes will not adversely affect students already enrolled and covered under the provisions of the existing agreement.
14. HU and TSCC each reserve the right to terminate this agreement provided that at least one year's notice of proposed termination is given.

This document is a renewal and update of the original agreement dated October 10, 2007.

This agreement is effective for an additional 5 years, beginning April 1, 2014.

**Dual Admission and Enrollment Agreement
between
Terra State Community College
and
Heidelberg University**

This agreement is a continuation of the initial agreement entered into on March 3, 2008 (effective date), by and between **Terra State Community College (TSCC)** and **Heidelberg University (HU)**.

BACKGROUND

TSCC and HU desire to continue this contract, clarifying the status and treatment of students who choose to enroll at HU while enrolled at TSCC. The goal of the program (the "Dual Admission Program") established by this Agreement is to recruit and enroll students ("Dual Admission Students") to TSCC and HU, with the intent that students first complete the associate's degree at TSCC, while purposefully preparing for transfer to HU to complete the bachelor's degree. While enrolled at TSCC, Dual Admission Students will have access to many services and programs at HU that generally are not available until a student matriculates.

Accordingly, both parties agree as follows:

A. Admission Requirements and Processes

Students may apply and be admitted to the Dual Admission Program directly out of high school or as college transfer students. In either case, students would begin the Dual Admission Program by completing an associate degree at TSCC, while purposefully planning to transfer to HU for bachelor degree completion. The Dual Admission Program requires that students be accepted by TSCC, and also by HU.

1. A Dual Admission Program application will be available online from both the TSCC and HU websites. Students who wish to participate in the Dual Admission Program should complete the Dual Admission Application which will be submitted to the Admission Office at HU. HU will then forward a copy of the application to TSCC. The application fee will be waived.
2. Applicants who do not initially meet admission requirements to HU, but do meet admission requirements of TSCC, may enroll at TSCC and then reapply to the Dual Admission Program after successful completion of TSCC coursework as designated by the HU advisor.

3. TSCC and HU will actively encourage all Dual Admission Program applicants to complete an associate degree prior to transfer to HU when doing so is in the best interest of the student.
4. As a part of the application process to the Dual Admission Program, applicants agree to release student record information between TSCC and HU.
5. Neither party shall discriminate against Dual Admission Students or Dual Admission applicants on the basis of race, color, religion, gender, sexual orientation, age, national origin or ancestry, or disability.

B. Dual Admission Enrollment

1. Dual Admission Students may enroll in a maximum of 3 semester hours of course work at HU during Fall and Spring for a maximum of four semesters prior to transfer. If a student is enrolled in a course with a lab or a course that requires a co-requisite, the student may take a maximum of 4 semester hours.
2. The tuition rate for Dual Admission Students will be determined based on the current per-hour tuition rate charged at TSCC. HU will bill Dual Admission Students directly. Students are expected to pay HU at the beginning of each term; however, students waiting on a disbursement from TSCC financial aid may pay when disbursement is received. All fees must be paid prior to registering for any subsequent term. HU lab fees and books are the student's responsibility. Courses taken above and beyond the 3 to 4 semester hours permitted by the Dual Admission Program will be billed at the regular HU rate in effect for that term.
3. Academic advising of Dual Admission Students during their periods of enrollment at TSCC will be made available at both HU and TSCC. To the extent not prohibited by law or TSCC policy, TSCC will provide HU access to student records as needed so that baccalaureate program advising may take place.
4. All TSCC general education and other non-remedial courses in which the student receives a grade of "C" or better will transfer and will be applied toward fulfilling baccalaureate degree requirements at HU. Grades below a "C" will only transfer for students with completed Associate of Arts or Associate of Science degrees and will apply towards requirements as indicated in the institutional articulation agreement. Only courses earned at HU will be used to calculate the cumulative GPA for HU. Courses will be identified on the TSCC and the HU transcripts as either a TSCC or a HU course.
5. When appropriate, HU courses will transfer back to TCC and be applied to associate degree requirements.
6. Dual Admission Students will be issued a HU student ID. HU will provide Dual Admission Students access to HU services including library privileges, notification of HU campus events, invitations to participate in career-oriented organizations, and other activities that would broaden their academic program.

C. Program Administration

1. Dual Admission Students will be coded and tracked in the Student Information Systems at both HU and TSCC.
2. HU and TSCC will each assign a representative to serve as a liaison and assure continued communication between the two institutions on matters related to this Agreement. HU and TSCC representatives will formally review this Agreement on an annual basis.

HU contact:

Susan Rife
Associate Director of Admission
419-448-2097
srife@heidelberg.edu

TSCC contact:

Sister Patricia Carter
Coordinator of Transfer and Articulation
419-559-2374
spcarter@terra.edu

3. HU will hold a Dual Admission Program orientation prior to the beginning of each academic term. This orientation program will be required for all new Dual Admission Students prior to attending HU classes. The program will assist Dual Admission Students in understanding program policies and procedures, the requirements to obtain a bachelor's degree and how TSCC credits will be applied, and will acquaint them with services available to them at HU.
4. Both HU and TSCC agree to send updated transcripts to the other party at the conclusion of each academic term for each student enrolled in the Dual Admission Program.
5. Dual Admission Students will not be assessed a transcript request fee for transcripts issued for the administration of the Dual Admission Program.
6. Marketing will be coordinated by the liaisons at both HU and TSCC.

D. Student Conduct

1. Dual Admission Students will be subject to the policies and procedures of TSCC, when participating in TSCC programs or when present at TSCC facilities. Dual Admission Students will also be subject to the policies and procedures of HU, when participating in HU programs or when present at HU facilities.
2. Except as may be prohibited by law or by an applicable policy of a party to this agreement, HU and TSCC will each promptly notify the other of any financial, disciplinary, or academic actions that have been or are about to be taken against a Dual Admission Student. TSCC and HU may take any of these actions on their own, and the other party is not required to take similar action against a Dual Admission Student merely because such an action was taken by the other party. Except as set forth explicitly in this Agreement, neither party will have any authority to direct the actions of the other party relating to any Dual Admission Student.

E. Financial Aid and Scholarships

1. Dual Admission Students who wish to apply for financial aid will do so via TSCC's Financial Aid Office for periods of part-time or full-time enrollment at TSCC. Students will complete a consortium agreement if enrolled less than full-time at TSCC to update student status for financial aid processing.

2. Upon transfer to HU, students will apply for financial aid via HU's Financial Aid Office for periods of part-time or full-time enrollment at HU.
3. Dual Admission Students enrolling in HU on a full-time basis with a cumulative grade point average of 2.5 or higher will be eligible to receive a Transfer Academic Award in amounts to be determined solely by HU.

F. Term and Termination.

1. This Agreement will continue to run from the Effective Date on page one. In the event either party desires to terminate this agreement, that party must notify the other party in writing one year prior to the date of termination.
2. Either party may terminate this Agreement in the event of a material breach by the other party, effective upon the date that is 90 days after the notice that includes a description of the breach; *provided* in either case that the breaching party shall be allowed until said effective date to cure said breach, and if the breach is so cured the termination notice will be of no effect.
3. In case of termination of this Agreement for any reason, Dual Admission Students previously accepted by or admitted to HU shall continue to receive the benefits contemplated by this Agreement.
4. Any changes to this agreement must be put in writing in the form of an addendum and signed by both parties.

G. Miscellaneous.

1. Severability. If any Section or provision of this Agreement be held illegal, unenforceable or in conflict with any law by a court of competent jurisdiction, such Section or provision of this Agreement shall be deemed severed from this Agreement and the validity of the remainder of this Agreement shall not be affected thereby.
2. Notices. All notices or other written communications relating to termination, expiration, or legal matters required or permitted under this Agreement shall be given in writing by courier or reputable overnight delivery services, or by certified mail, return receipt requested to either party at its address first set forth above. Notices shall be sent to the attention of the liaison as indicated in section C.
3. Waivers and Amendments. The waiver by either party of any provision of this Agreement on any occasion and upon any particular circumstance shall not operate as a waiver of such provision of this Agreement on any other occasion or upon any other circumstance. This Agreement may be modified or amended only via a writing signed by both parties.
4. Survival. Sections F(3) and this Section G shall survive expiration or termination of this Agreement for any reason.

5. Complete Agreement; Integration. This Agreement contains the complete understanding of the parties with respect to the subject matter hereof and supersedes all other agreements, understandings, communications and promises of any kind, whether oral or written, between the parties with respect to such subject matter.
6. Counterparts. This Agreement may be executed in multiple counterparts, all of which shall be originals and which together shall constitute a single agreement.
7. No Third Party Beneficiaries. This Agreement does not and is not intended to confer any rights or remedies upon any party other than TSCC and HU.
8. Facsimile Signatures. For the purpose of interpreting this Agreement, facsimile signatures shall be considered equivalent to original signatures.
9. Neutral Interpretation. This contract has been prepared for signature only after each party has had sufficient opportunities to negotiate changes. Each party has been represented by its own lawyer, has had sufficient opportunities to consult with that lawyer, and has done so. The parties agree that this contract should be understood and interpreted as a document fully negotiated and accepted by the parties, and should not be construed against the drafting party.

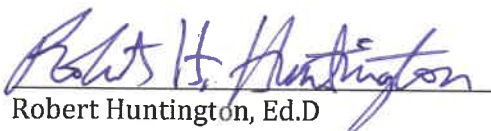

INTENDING TO BE LEGALLY BOUND, by signing below, each party acknowledges its agreement with the terms and conditions of this Agreement and each signatory represents and warrants that he/she is authorized to sign on behalf of and to bind his/her party to all of the terms and conditions of this Agreement as of the Effective Date.

This document is a renewal and update of the original agreement dated March 3, 2008.

This agreement is effective for an additional 5 years, beginning April 1, 2015.

Biology and Environmental Science Transfer Agreement

This agreement is to aid Terra State Community College (TCC) students whose ultimate goal is to earn a Bachelor of Science (BS) in Biology or Environmental Science from Heidelberg University (HU).

The following guides have been created to help students select appropriate courses to maximize transfer credit while completing the Associate of Science (AS):

Pathway to a BS in Biology:

Appendix 1: AS Biology Pre-major

Pathway to a BS in Environmental Science:

Appendix 2: AS General Transfer Degree

Appendix 3: AS Biology Pre-major

Students planning to pursue an advanced degree after the BS degree should work with faculty to create a plan which could include any required prerequisites for entry into the advanced degree program.

The terms for admission to HU will be followed based on the current institutional articulation agreement. Students who have earned an AS degree from TCC, will be admitted to HU with full junior status and will have met all of HU's general education requirements. Courses completed with a D or higher will transfer to HU and be applied toward the degree as indicated in the agreement.

While more than 60 hours may transfer to HU, only 60 hours from TCC may be applied toward the 120 hours required for the BS degree. Students must complete a minimum of 30 semester hours of coursework at the 300-level or above at HU or in combination with other 4-year institutions. At least half of the hours in the major must be completed at HU.

While enrolled at TCC, students can choose to enroll in the Dual Admission and Enrollment Program through HU to complete courses that may be applied to the BS and/or AS degree requirements.

Both parties agree to review this agreement annually and provide the other with curriculum changes.

Chemistry and Biochemistry Transfer Agreement

This agreement is to aid Terra State Community College (TCC) students whose ultimate goal is to earn a Bachelor of Science (BS) in Chemistry or Biochemistry from Heidelberg University (HU).

The following guides have been created to help students select appropriate courses to maximize transfer credit while completing the Associate of Science (AS):

Pathway to a BS in Chemistry:

Appendix 1: AS General Transfer Degree

Pathway to a BS in Biochemistry:

Appendix 2: AS General Transfer Degree

Students planning to pursue an advanced degree after the BS degree should work with faculty to create a plan which could include any required prerequisites for entry into the advanced degree program.

The terms for admission to HU will be followed based on the current institutional articulation agreement. Students who have earned an AS degree from TCC, will be admitted to HU with full junior status and will have met all of HU's general education requirements. Courses completed with a D or higher will transfer to HU and be applied toward the degree as indicated in the agreement.

While more than 60 hours may transfer to HU, only 60 hours from TCC may be applied toward the 120 hours required for the BS degree. Students must complete a minimum of 30 semester hours of coursework at the 300-level or above at HU or in combination with other 4-year institutions. At least half of the hours in the major must be completed at HU.

While enrolled at TCC, students can choose to enroll in the Dual Admission and Enrollment Program through HU to complete courses that may be applied to the BS and/or AS degree requirements.

Both parties agree to review this agreement annually and provide the other with curriculum changes.

Required TCC Hours:	61	Hours Transferred to HU:	60	
* Choose these courses to meet HU major requirements				Minimum of 30 hrs at the 300-level or above must be completed at 4-year institutions. 25 hours will be earned with major requirements
Students may also choose to enroll in the Dual Admission and Enrollment Program to complete up to 12 hours of degree requirements at HU at the TCC tuition rate.				
A C- or higher must be earned in courses to meet a major requirement at HU				
			60	Major Hours Remaining after AS degree
				Additional 300-level hours to meet minimum requirement
				Elective Hours
				Total Hours Remaining
				2014-2015 catalog
			60	TOTAL MINIMUM HOURS REQUIRED FOR HU DEGREE
			61	120

Education Major Transfer Agreement

This agreement is to aid Terra State Community College (TCC) students whose ultimate goal is to earn a Bachelor of Arts (BA) or a Bachelor of Science (BS) in Education from Heidelberg University (HU).

The following guides have been created to help students select appropriate courses to maximize transfer credit while completing the Associate of Arts (AA) with a concentration in Education:

Pathways to a BA or BS in Education:

Appendix 1: Early Childhood Education

Appendix 2: Early Childhood Education with Intervention Specialist

Appendix 3: Middle Childhood Education (*use with Appendix 3.1*)

Appendix 3.1: Middle Childhood Areas of Concentration

Appendix 4: Adolescent Young Adult (AYA) Education (*use with Appendix 4.1, 4.2, 4.3 or 4.4*)

Appendix 4.1 Language Arts

Appendix 4.2 Life Sciences (Biology)

Appendix 4.3 Mathematics

Appendix 4.4 Social Studies

Appendix 5: Multi-Age Education (*use with Appendix 5.1*)

Appendix 5.1: Health and Physical Education

All programs lead to teacher licensure in the State of Ohio. Students pursuing licensure in AYA may double major in the academic subject area. Additional coursework may be necessary. The Intervention Specialist endorsement can be added to any of the licensure programs.

Please note: It may be in the best interest of students pursuing licensure in AYA Life Sciences or Mathematics to complete an Associate of Science (AS) degree rather than the AA with a concentration in Education. Students should seek advising to determine the best pathway.

The terms for admission to HU will be followed based on the current institutional articulation agreement. Students who have earned an AA or AS degree from TCC, will be admitted to HU with full junior status and will have met all of HU's general education requirements. Courses completed with a D or higher will transfer to HU and be applied toward the degree as indicated in the agreement.

While more than 60 hours may transfer to HU, only 60 hours from TCC may be applied toward the 120 hours required for the BA/BS degree. Students must complete a minimum of 30 semester hours of coursework at the 300-level or above at HU or in combination with other 4-year institutions. At least half of the hours in the major must be completed at HU.

While enrolled at TCC, students can choose to enroll in the Dual Admission and Enrollment Program through HU to complete courses that may be applied to the BA/BS and/or AA/AS degree requirements.

Both parties agree to review this agreement annually and provide the other with curriculum changes.

Addendum I to articulation agreement
dated October 10, 2007
for students pursuing a Bachelor of Art degree with a major in
Early Childhood Education

This addendum is to aid Terra State Community College (TSCC) students whose ultimate goal is to earn a Bachelor of Art degree (BA) with a major in Early Childhood Education from Heidelberg University (HU). The terms for admission and transfer credit acceptance will be followed based on the original agreement.

By selecting designated courses (see Appendix B.1—HU General Education Requirements and Appendix B.2—HU Early Childhood Major Requirements), students who do not want to earn an associate degree can earn the first 2 years of the BA degree at TSCC and then transfer to HU to finish in an additional 2 years. Students who want to earn an Associate of Art (AA) degree prior to transfer should refer to Appendix B.3—TSCC AA Transfer Degree. Students who want to earn an Associate of Applied Science (AAS) should refer to Appendix B.4—TSCC AAS Degree.

For students who have not earned an Associate of Art degree (AA) at TSCC, courses completed with a C- or higher will transfer to HU and be applied toward the BA degree. For students who have earned an AA degree at TSCC, courses completed with a D or higher will transfer to HU and be applied toward the BA degree as indicated in the original agreement. While more than 60 hours may transfer to HU, only 60 hours from TSCC may be applied toward the 120 hours required for the BA.

To finish in 2 years at HU, students must complete EDU 220 and 225 prior to transfer and have a cumulative GPA of at least 3.0 prior to enrollment in 300-level professional education classes. Education Licensure Candidates must also earn state passing scores on all Praxis II tests prior to registering for student Teaching.

While enrolled at TSCC, students can choose to enroll in the Dual Admission and Enrollment Program through HU to aid in completing EDU 220 or any other outstanding requirements. Students may also choose to enroll in courses during the summer prior to transfer if these courses are available.

During enrollment in EDU 220, students should apply for admission to the Teacher Licensure Program at HU and register for the Principals of Learning (PLT) examination. Prior to admission, students must have developed entrance level competency in general knowledge and professional studies as evidenced by the following requirements:

1. A minimum cumulative GPA of 2.75
2. Demonstration of General Education Proficiency in one of the following ways:
 - a. A score of 175 on each subtest of the Praxis I (PPST-Pre-Professional Skills Test)
or
 - b. A minimum composite score of 21 on the ACT or a minimum score of 1000 on the SAT
or
 - c. The following minimum scores on the COMPASS test in lieu of PPST scores for non-traditional students aged 25 or over: Writing 89; Reading 88; Pre-algebra 70.

Upon transfer to HU, students may choose to complete the HU requirements in effect at the time of matriculation at TSCC (no longer than 2 years prior to matriculation at HU) or complete the HU requirements in effect at the time of matriculation at HU.

Both parties agree to review this agreement annually and provide the other with any curriculum changes that need to be made.

HU contact:

Hours:	15		16		16		14

Some general education courses will have to be taken in the summer to finish in 4 years.

Credit by exam is available for MTH 117 and/or MTH 118. Interested students should contact HU mathematics dept.

At least 1/2 of the hours in the major must be completed at Heidelberg.

Students must complete a minimum of 30 hours at the 300-level or above at 4-year institutions.

Only 60 hours from 2-year institutions may be used towards the total 120 hours required for a BA degree.

Addendum II to Articulation Agreement
dated October 10, 2007
for students completing an
Associate of Arts or Associate of Science Degree

This addendum is to aid Terra Community College (TCC) students whose ultimate goal is to earn a Bachelor of Art degree (BA) or Bachelor of Science degree (BS) from Heidelberg University (HU). The terms for admission to HU will be followed based on the original agreement.

Students who have earned an Associate of Art (AA) or an Associate of Science (AS) degree from TCC, will be admitted to HU with full junior status and will have met all of HU's general education requirements. Courses completed with a D or higher will transfer to HU and be applied toward the degree as indicated in the original agreement.

While more than 60 hours may transfer to HU, only 60 hours from TCC may be applied toward the 120 hours required for the BA/BS degree. Students must complete a minimum of 30 semester hours of coursework at the 300-level or above at HU or other 4-year institutions. At least half of the hours in the major must be completed at HU. Students completing a minor must also complete at least half of the minor hours at HU.

Many of HU's majors can be completed in 2 years after transfer to HU. Appendices for specific majors will be added to this addendum and made available to aid students in selecting appropriate courses to maximize transfer credit while completing the AA/AS degree.

While enrolled at TCC, students can choose to enroll in the Dual Admission and Enrollment Program through HU to complete courses that may be applied to the BA/BS and/or AA/AS degree requirements.

Upon transfer to HU, students may choose to complete the HU requirements in effect at the time of matriculation at TCC (no longer than 2 years prior to matriculation at HU) or complete the HU requirements in effect at the time of matriculation at HU.

Both parties agree to review this agreement annually and provide the other with any curriculum changes that need to be made.

Appendix D: Health Information Management/Health Sciences

to

Addendum II

dated December 6, 2011

Appendix D is to aid Terra Community College students who plan to complete an Associate of Science (AS) with a Health Information Management Concentration and transfer to Heidelberg University to complete a Bachelor of Science (BS) with a major in Health Sciences.

Students planning to pursue an advanced degree after completing the bachelor degree should work directly with the Health Sciences faculty to create a plan which could include any required prerequisites for entry into the degree program.

Both parties agree to review this agreement annually and provide the other with any curriculum changes that need to be made.

Addendum III to articulation agreement

dated October 10, 2007

for students pursuing an Associate of Applied Science in Accounting or Business
with plans to transfer into a Bachelor of Art degree with a major in
Accounting or Business Administration

This addendum is to aid Terra State Community College (TSCC) students pursuing an Associate of Applied Science (AAS) whose ultimate goal is to earn a Bachelor of Art degree (BA) with a major in Accounting or Business Administration from Heidelberg University (HU). The terms for admission and transfer credit acceptance will be followed based on the original agreement.

Students completing an AAS should refer to Appendix A (Accounting) or Appendix B (Business Administration) and take the recommended courses to fulfill TSCC general elective requirements to fully utilize those courses to also meet HU requirements.

To complete degree requirements in 2 years at HU, students must complete the Major Pre-Professional Core (ACC 201/202 and ECO 251/252) and the Major Allied Requirements (COM 100, CPS 100, ENG 101, MTH 115/210/121, and PHI 216) prior to transfer. Students can do so by completing the additional designated courses listed on Appendixes A and B.

While more than 60 hours may transfer to HU, only 60 hours from TSCC may be applied toward the 120 hours required for the BA.

While enrolled at TSCC, students can choose to enroll in the Dual Admission and Enrollment Program through HU to aid in completing outstanding requirements. Doing so could reduce the number of hours remaining at Heidelberg at the time of transfer to 48 hours.

Upon transfer to HU, students may choose to complete the HU requirements in effect at the time of matriculation at TSCC (no longer than 2 years prior to matriculation at HU) or complete the HU requirements in effect at the time of matriculation at HU.

Both parties agree to review this agreement annually and provide the other with any necessary curriculum changes.

HU contact:

Susan Stine Rife

Addendum IV to articulation agreement

dated October 10, 2007

for students pursuing an **Associate of Applied Science in Music Technology-Performance Major**
with plans to transfer into a **Bachelor of Music** degree with a major in **Performance**

This addendum is to aid Terra State Community College (TSCC) students pursuing an Associate of Applied Science (AAS) whose ultimate goal is to earn a Bachelor of Music degree (BMus) with a major in Performance from Heidelberg University (HU). The terms for admission and transfer credit acceptance will be followed based on the original agreement.

Students completing an AAS should refer to the Appendix of the major performance area (Appendix A: Instrumental/Woodwind, Brass, Percussion/Strings; Appendix B: Piano/Organ; Appendix C: Vocal; or Appendix D: Composition) and take the recommended courses to fulfill TSCC general elective requirements to fully utilize those courses to also meet HU requirements.

While more than 60 hours may transfer to HU, only 60 hours from TSCC may be applied toward the 125 hours required for the BMus.

While enrolled at TSCC, students may choose to enroll in the Dual Admission and Enrollment Program through HU to aid in completing outstanding requirements. Doing so could reduce the number of hours remaining at Heidelberg at the time of transfer.

Upon transfer to HU, students may choose to complete the HU requirements in effect at the time of matriculation at TSCC (no longer than 2 years prior to matriculation at HU) or complete the HU requirements in effect at the time of matriculation at HU.

Both parties agree to review this agreement annually and provide the other with any necessary curriculum changes.

Addendum V to articulation agreement

dated October 10, 2007

for students pursuing an **Associate of Applied Science in Health Information Technology**
with plans to transfer into a **Bachelor of Science** degree with a major in **Health Sciences**

This addendum is to aid Terra State Community College (TSCC) students pursuing an Associate of Applied Science (AAS) whose ultimate goal is to earn a Bachelor of Science degree (BS) with a major in Health Sciences from Heidelberg University (HU). The terms for admission and transfer credit acceptance will be followed based on the original agreement.

Students completing an AAS in Health Information Technology should refer to Appendix A and take the recommended courses where suggested to fulfill TSCC general elective requirements to fully utilize those courses to also meet HU requirements.

Students can reduce the number of hours remaining after AAS completion to the minimum of 60 hours by completing the additional designated courses listed on Appendix A.

While more than 60 hours may transfer to HU, only 60 hours from TSCC may be applied toward the 120 hours required for the BS.

While enrolled at TSCC, students may choose to enroll in the Dual Admission and Enrollment Program through HU to aid in completing outstanding requirements. Doing so could reduce the number of hours remaining at Heidelberg at the time of transfer.

Upon transfer to HU, students may choose to complete the HU requirements in effect at the time of matriculation at TSCC (no longer than 2 years prior to matriculation at HU) or complete the HU requirements in effect at the time of matriculation at HU.

Students planning to pursue an advanced degree in the Health Sciences (for example Physical Therapy, Physician Assistant Studies, Chiropractic, etc.) after completing the bachelor degree should work directly with the Health Sciences faculty to create a plan which could include any required prerequisites for entry into the specific degree program.

Both parties agree to review this agreement annually and provide the other with any necessary curriculum changes.

Addendum VI to articulation agreement

dated October 10, 2007

for students pursuing an **Associate of Applied Science in Medical Assisting**
with plans to transfer into a **Bachelor of Science** degree with a major in **Health Sciences**

This addendum is to aid Terra State Community College (TSCC) students pursuing an Associate of Applied Science (AAS) whose ultimate goal is to earn a Bachelor of Science degree (BS) with a major in Health Sciences from Heidelberg University (HU). The terms for admission and transfer credit acceptance will be followed based on the original agreement.

Students completing an AAS should refer to the appropriate Appendix (Appendix A: Medical Assisting-Coding; Appendix B: Medical Assisting-Phlebotomy; or Appendix C: Medical Assisting-Practice Management).

Students can reduce the number of hours remaining after AAS completion to the minimum of 60 hours by completing the additional designated courses listed on the Appendixes.

While more than 60 hours may transfer to HU, only 60 hours from TSCC may be applied toward the 120 hours required for the BS.

While enrolled at TSCC, students may choose to enroll in the Dual Admission and Enrollment Program through HU to aid in completing outstanding requirements. Doing so could reduce the number of hours remaining at Heidelberg at the time of transfer.

Upon transfer to HU, students may choose to complete the HU requirements in effect at the time of matriculation at TSCC (no longer than 2 years prior to matriculation at HU) or complete the HU requirements in effect at the time of matriculation at HU.

Students planning to pursue an advanced degree in the Health Sciences (for example Physical Therapy, Physician Assistant Studies, Chiropractic, etc.) after completing the bachelor degree should work directly with the Health Sciences faculty to create a plan which could include any required prerequisites for entry into the specific degree program.

Both parties agree to review this agreement annually and provide the other with any necessary curriculum changes.
